Note: ¹ Numbers Served represent consumers served by LAC-DMH in Short Doyle/Medi-Cal Facilities. The count does not include consumers served in Fee-For Service Outpatient facilities, institutional facilities such as jails and probation camps as well as Inpatient facilities including Fee-For-Service Inpatient Hospitals. ² Penetration Rate = Number of Consumers Served / Numbers of People Estimated with SMI & SED. ³ Rates exceed 100% for many ethnic groups in each Service Area because of disproportionate geographical distribution of ethnic population in the County. When a certain ethnic group is a smaller proportion of the overall population in a SA, applying the overall County rate to this disproportionate population in a SA, (especially to those living at or below 200% poverty) leads to rates exceeding 100%.
